ACADEMIC QUALIFICATIONS

Year	Degree / Certificate	Institute	Board/University	CGPA/%
2025-28	B.Tech, Computer Engineering	NMIMS MPSTME	NMIMS	3.8/4.0
2022-25	Diploma in Computer Engineering	NMIMS MPSTME	NMIMS	3.84/4.0
2022	Class X (ICSE)	Lilavatibai Podar High School	ICSE	95.6%

EXPERIENCE

Software Development Intern | STULZ India (CHSPL)

May '26 – Jul '26

- **Objective** Design and deliver an enterprise Meeting Room Booking System (MRBS) to replace informal, conflict-prone phone/WhatsApp-based booking across STULZ's Indian offices
- **Approach** Architected a full-stack platform (Angular 17, Node.js/Express, MySQL + Sequelize ORM) integrated with STULZ's internal SSO and HRMS for zero-touch employee onboarding
- Designed a three-tier access control system with 17 HRMS branch codes mapped to automatic location- and role-based room permissions
- Built a self-serve admin portal for managing rooms, access, and locations without IT or SQL involvement, and integrated AWS SES and Microsoft Graph API for automated booking emails and Outlook sync
- **Result** Shipped a production-deployed, containerized system across 3 STULZ locations, eliminating manual booking conflicts and reducing IT dependency to zero

Freelance Web Developer & Social Media Consultant | Independent Client Engagements

2024 – Present

- Built and deployed 2 responsive client portfolio websites using React, Node.js, and a Supabase backend for data and contact management
- Ran social media strategy and content for small businesses, driving a 60% increase in engagement and 50+ client inquiries through analytics-driven campaigns

KEY PROJECTS

Sentiment Analysis of Indian English, Hinglish & Slang Text | Research Project

2025

- Built and co-authored a research paper on a machine learning sentiment classification model, incorporating slang-aware preprocessing for Indian English and Hinglish text, comments, and reviews

AI Hackathon Concepts | Google Developer Groups & Smart India Hackathon

2025

- Designed an AI-powered financial news analysis platform concept offering affordable market insights as an alternative to costly intelligence tools (GDG Agentic AI Hackathon)
- Proposed a cloud-based practice management and nutrient-analysis system generating Ayurveda-focused diet plans for dietitians (Smart India Hackathon)

LEADERSHIP & SOCIAL IMPACT

- **Core Team, Social Conclave** — Led outreach driving 300+ registrations and managed on-ground crowd operations for a socio-economic conference (2024)
- **Sports Captain, Lilavatibai Podar High School** — Led the school track team and represented the school at national-level athletics events (2023)
- **Volunteer Educator, Angel Xpress Foundation** — Taught Math and English to underprivileged students aged 6–12, conducting and grading assessments (2024–25)
- **Fundraising Volunteer, Habitat for Humanity India** — Ran a crowdfunding campaign supporting food and hygiene kit distribution for COVID-affected communities

SKILLS & CERTIFICATIONS

- **Programming:** C++, Python, R, SQL
- **Web Development:** HTML, CSS, JavaScript, React, Node.js, Supabase
- **Tools & AI:** Git/GitHub, Figma, Canva, Claude AI, ChatGPT, Cursor, Gemini
- **Certifications:** Google AI Fundamentals · Anthropic Claude 101 · NVIDIA — Augment your LLM using RAG
